Experience in work with doctoral students (defended doctoral dissertations, initiated doctoral programmes/procedures) in chronological order	M.Sc. Piotr Grzegory, 2016-2018, "Formation of physicochemical properties of dried strawberries", Faculty of Food Sciences, Warsaw University of Life Sciences, assistant supervisor; thesis defence 09.02.2018.
Project/grants achievements (in the last 10 years)	1. project leader - 'Influence of extraction type on the quality of microencapsulated pigments obtained from orange carrot and red beet', 09.2013- 06.2014, Research Task Grant from internal competition mode at SGGW for young researcher or PhD student, 2. project leader - "Analysis of the bed structure and particles of powders obtained from fermented vegetable juices by spray drying", project from Miniatura 3 competition, 2019/03/X/NZ9/00388
Topic – research problem – for which the candidate supervisor seeks a doctoral student	Study on the influence of a pre-treatment on the physical and chemical properties of vegetable powders and on their use as food additives.
